

PROJECT TITLE : Q.C. Onnens  
PERIOD COVERED : May 22nd - June 23rd, 1980  
WRITTEN BY : A. Robbiani

---

LAB

The installation of the new laboratory was finished.  
All Q.C. work on ES, RCB and ET can be carried out with the  
existing equipment, particularly the determination of O.V., C.V.  
and S.V.

PERSONNEL

The second lab. technician started work on June 16th at 50%  
for the time being.  
A third person will be hired.

SIEVE FRACTIONS AND C.V. COMPARISON TEST

Three MLF cut rag tobacco samples were prepared. On all 3 samples  
sieve fractions and C.V. will be determined for comparison :

Sample 1 in FTR  
Sample 2 in Richmond  
Sample 3 in FTR, after having been sent to Richmond and  
returned to Neuchâtel.

The test results are not yet available.
